AutoCAD

FALL 2014

The courses listed below may be taken individually or as part of a CERTIFICATE program offered by EKU's Center for Career & Workforce Development. In order to receive a certificate, participants must complete Blueprint Reading, Basic AutoCAD (Level 1) and either 3-D Drawing & Modeling or Intermediate AutoCAD (Level 2) that will be offered in the spring of 2015.

Software: Autodesk  Version: 11

**Blueprint Reading  (12 hours)**

*Tuition: $220.00*

Tuesdays & Thursdays    September 16—September 25, 2014

6:00 – 9:00 p.m.

In the 12 hours scheduled, participants will learn to recognize standard symbols, ratings and associated data and will be able to read prints for trouble-shooting, equipment installation and maintenance manuals interpretation.

- Standard symbols
- Electrical print comprehension
- Fluid print comprehension
- Mechanical print comprehension

**AutoCAD Level I  (30 hours)**

*Tuition: $630.00*

Tuesdays & Thursdays    October 7—November 6, 2014

6:00 – 9:00 p.m.

Level I is a hands-on course developed for people who have a basic understanding of the PC with little or no AutoCAD experience. Instruction is provided on software set-up and fundamentals of AutoCAD commands. Participants need to have some typing experience before enrolling in this class.

- Instruction includes creating and editing AutoCAD drawings.
- Managing files
- Excellent way to begin working in Computer Assisted Design.
- Using the Design Center
