“First Line Supervision Certificate Program”

Now that you’re a supervisor, you have most likely developed the technical skills required in your field. Your continued success now depends upon the ability to get things accomplished through others. EKU’s supervision program helps develop your interpersonal skills or “people skills” area. The programs are designed to offer a bridge between technical skills and supervising others to increase overall company performance. These classes are helpful for new supervisors, those without formal training, and workers who hope to move into a supervisory role in the future.

EKU plans to kick off the “First Line Supervision Certificate Program” with the 3-day Basic Core Concepts I on August 4, 11 & 18 in Richmond and August 25, 30 & September 8, 2016 in Corbin. Participants then select an additional 18 hours (3 days) of elective seminars to complete the Basic Supervision Certificate program. The elective seminars may be taken as part of the Certificate Program, or as a stand-alone professional development activity. The full schedule for Fall, 2016 is included in this brochure.

Graduates may choose to continue on into the Advanced Supervision Certificate Program. The second phase of the program requires the 3-day Advanced Core Concepts II, which is scheduled for November 2, 9 & 16 in Richmond and November 3, 10 & 17, 2016 in Corbin. Participants will then select three additional 18 hours (3 days) of electives to complete the Advanced Supervision Certificate Program.

Program Benefits

♦ The First Line Supervision Certificate program can be used for supervisors at many levels:
  ♦ Experienced on the job but never having benefitted from formal or structured training.
  ♦ New on the job and just getting started.
  ♦ Training to prepare for future openings.
  ♦ Having interest in becoming a supervisor but would like a better understanding of the skill requirements.
  ♦ This program provides insight and understanding into the skills, knowledge and techniques demonstrated by successful supervisors.
  ♦ The approach is straight-forward and to the point.
  ♦ The goal is to increase awareness and understanding.
  ♦ Most importantly, this program addresses leadership and the need to build relationships with the team the supervisor is leading.
### Basic Core Concepts I

Core Concepts I provides participants the opportunity to learn vital skills needed to successfully supervise in today’s ever-changing workplace. This course is based around the following topics: Learning your New Role, Expectations of Supervision, Motivating and Coaching Others, and other critical issues. Participants complete the Myers-Briggs Type Indicator to learn more about themselves and how they make decisions in the workplace. **Instructor** Larry Palmisano has been leading training at EKU since 2008. He retired with more than 40 years of manufacturing experience, with 20 years as a Plant Manager. Larry has a degree in Industrial Management from the University of Akron.

### Advanced Core Concepts II

Advanced Core Concepts II offers an opportunity for a supervisor to expand the concepts introduced in Core I through detailed examination and case-study experience. Added material includes the performance appraisal process, the changing workplace, legal aspects of supervision, and growing into management. Learn to make your best skills as supervisor become second nature. **Instructor** Coy J. Brown is an organization & leadership development facilitator specializing in training and development. Coy holds a Masters in Communication from the University of Kentucky as well as a Masters in Human Resource Management & Development from Chapman University in California.
