Note: Participants will be expected to complete some online assignments outside of the classroom.

Middle Managers in all types of organizations face additional challenges as compared to first-line supervisors, due to the increased complexity of their responsibility and managing individuals who are supervising others. To be successful, Middle Managers need to hone their skills and approaches to maximize their personal effectiveness as organizational leaders.

"Leadership Excellence" is a high octane program that uses a variety of active-learning strategies — exercises, role plays, videos, class discussions, case projects, and online discussions on Blackboard — to promote application and long-term retention of the knowledge and skills gained in the program.

"Excellence Defined.... "We are what we repeatedly do. Excellence, then, is not an act, but a habit." - Aristotle

"Management is efficiency in climbing the ladder of success; leadership determines whether the ladder is leaning against the right wall!" - Covey
